

Point William

- SMITH LAKE -

At Point William, the homes are built for generations
This is the lake experience you've been waiting for

Nestled in a grove of hardwoods and rock outcroppings on Smith Lake, the homes of Point William cultivate a sense of permanence and a strong connection to the land. We are building homes of architectural integrity with sweeping, panoramic lake views—yet ease of access to the water. At Point William, we are creating a sustainable future influenced by a timeless aesthetic.

Convenient to major metropolitan areas in North and Central Alabama, Point William is a lake destination waiting to be discovered. Walking trails, a community swimming pool, private docks and generous lot sizes connect residents to the magnificent environs. Architectural and environmental standards enhance a collective sense of community.

Situated amongst 22 acres on a spectacular peninsula, the classically designed homes by the nationally recognized firm Shepard and Davis Architecture are inspired by the pristine lake setting. The limited number of homes here take advantage of all that Smith Lake has to offer. Point William's plan is perfectly suited to the surroundings; our purpose is to preserve the natural splendor.
